Sunday.

Dear Dr. Du Bois,

Note my new address. It will last until I go to Harpers Ferry. I presume I shall arrive there some time Wednesday, and shall trust that you will be looking out for me, and will see that I have where to lay my head. I wonder if you are going to let me in as a reporter to the members' meetings. They will be the only things of much importance. Open meetings I know very well the value of!

I have had a big row with Dr. Chas Morris. Protect me from him if he comes around with a club - or what would be quite as overpowering, his eloquence.

I want to talk with you about the Negro's using the right of petition more.

This will be my first reporter's work, and I shall expect you to furnish me, as all lazy reporters do expect, with most of the matter you want put in the paper.

Very sincerely,

Mary W. Livingston
